COLLECTION C

Deadlocks

Add a dedicated locking point to any door. Choose by how the lock engages when the door closes.

10 Non-Latching Deadlocks

Manually operated deadlocks that do not lock automatically when the door closes. Use the key to engage the locking bolt.

> SUPPLIER NOTE
> *"We have the non-latching deadlocks (it does not lock automatically you have to use the key to lock)."*

Locks only with the key

Deadlock — normal keys

Deadlock with normal keys

- Non-latching: lock with the key

KSh 2,000 ~~KSh 2,500~~

Deadlock — dimple keys

Deadlock with dimple keys

- Non-latching: lock with the key

KSh 2,500 ~~KSh 3,500~~

Deadlock Anti-Drill

Anti-drill, steel-reinforced deadlock

- 70 mm cylinder
- Non-duplicatable keys*

KSh 5,000

11 Auto-Latching Deadlocks

Automatic-latching deadlocks whose mechanism engages when the door shuts. Correct installation remains essential.

> **SUPPLIER NOTE**
> *"We also have the Auto-latching deadlocks (it locks automatically once banged)."*

Locks automatically when the door shuts

KSh 6,500

12 Ball-Catch Deadlocks

A hybrid between non-latching and auto-latching deadlocks. The ball catch holds the door closed when it shuts; if the lower bolt is not locked, the door can be pushed or pulled open without a key. Turn the key to engage the main bolt when full locking is needed.

> **SUPPLIER NOTE**
> *"A hybrid solution between non-latching and auto-latching deadlocks."*

Ball catch holds the door | **Key engages the main bolt**

Ball-Catch Lockbody

Tenacity Locks Ltd · Along Kijabe Street

- Prices and availability are subject to confirmation with Tenacity Locks.
- Prices are in Kenya shillings (KSh). Crossed-out prices show the earlier price on promotional offers.
- “Non-duplicatable” (marked *) and “lifetime guarantee” are the supplier’s own descriptions, not an independent security certification.
- Guarantee terms apply to door locks as stated by the supplier; they are not extended to padlocks or accessories unless shown.
